## SUMMARY

Full Stack Web Developer with an affinity for building responsive, elegant apps that provide a pleasant user experience through interface and robust functionality. Has completed a full stack web development bootcamp from the University of Kansas. They want to use new found skills and experience and apply them to real world problems and be a part of apps that are powerful and serve their purpose, but also apps that people want to use for their ease of use and simple design. Fully MERN stack certified.

## TECHNICAL SKILLS

**Languages:** JavaScript, HTML, CSS, Markdown

**Libraries:** React, Sequelize, Bulma, Bootstrap, Materialize, Mongoose

**Database/Data Structures:** Mongo, MySQL, Json

**Frameworks:** Sequelize, Express, Node, JQuery

**Tools:** APIs, Postman, Compass, Insomnia, Vscode, Git, Github, Github Pages, Heroku

## PROJECTS

**Unburied: Museum Cataloger** |

<https://github.com/PierTwo/unburied-museum-cataloger> |

<https://piertwo.github.io/unburied-museum-cataloger/> |

Single page app that uses public APIs from the Met and the Art Institute of Chicago for. You can select a museum from a dropdown and type a keyword in the search and it will display the results from the selected museum. Was mostly responsible for getting the APIs from the Met to work and getting the carousel to display images nicely.

**Tools/ languages used** | Javascript, HTML, CSS | Multiple APIs | JQuery | Materialize | Git | Github Pages

**Memorize: Flashcards** |

<https://github.com/nhastings1/project-2-flashdata> |

<https://nameless-hamlet-43462.herokuapp.com/> |

After signing up or logging in you can view collections of flashcards and click through them and reveal answers to help memorization. You can also create your own collection of flashcards and add one to any of the collections. Was responsible for getting the database set up and routes for the cards and collections.

**Tools/ languages used** | Javascript, HTML, CSS | Node, Express | Handlebars | MySQL/Sequelize | Heroku | Postman | Github

**HTML For Beginners** |

<https://github.com/PierTwo/HTML-For-Beginners> |

<https://lit-bayou-05963.herokuapp.com/> |

An interactive way to learn the basics of HTML. After you make an account you can click through the tutorial steps and your progress will be saved when you exit the page. Some of the

steps use the code mirror tool to let the user type in html and they can see the results in an iframe on the page. Was responsible for implementing code mirror into the app and getting the database set up to save the users current step. Also set up the tutorial component and the dynamic buttons that let you navigate the page and show the quiz at the end.

**Tools/ languages used** | Javascript, HTML, CSS | Node, Express | React.js | MongoDB/Mongoose, GraphQL | Heroku | Apollo | Github

## EXPERIENCE

### **Pet Sitter/Dog Walker** **LatchKey Pets**

2020 – 2022  
Lee's Summit, MO

Responsible for creating a personal schedule and performing the specific client's requests for each visit/walk. The role requires time-management skills for scheduling and planning and communication with the clients for their needs.

Key Skills/Accomplishments:

- Experience scheduling work with Google Calendar and working with overlapping times and rescheduling with clients. Often needing to be flexible and cover for others who couldn't be at their assigned time. Clients many times want last minute time changes or requests.
- Communicating with clients with problems and concerns that happen in the moment like incorrect door codes, keys not working, and animals not cooperating. Needed to cooperate with other employees for keys, or questions. Sometimes helped other employees when they couldn't get in a house by dropping off keys.
- Helped train new employees who signed up for a new client on the clients needs for their pet. Made sure they had all the materials and information they need to provide a good experience for the client
- Had to deal with many unexpected variables like dogs with anxiety or temper issues and having to adjust in order for the visit to be safe and productive.
- Many clients expressed they were happy with their provided service and mentioned that they wished to continue with their services. Maintained a positive relationship with the clients and employees, making sure to arrive on time and fulfill the clients' requests.

## EDUCATION

**Full Stack Web Development Boot Camp Certificate:** *University of Kansas, Lawrence, KS*

**University Of Missouri-Kansas City:** 1 year, Kansas City, Missouri

**Metropolitan Community College-Longview:** 2 years, Lee's Summit, MO

**High School Diploma:** Lee's Summit West High School, Lee's Summit, MO
